

Mr. C. S. (Tyler) Przybylek

Tyler Przybylek is an independent consultant who formerly served as General Counsel and Acting Chief Operating Officer and of Department of Energy's National Nuclear Security Administration. In this role, Mr. Przybylek served as the headquarters interface for integration of field and headquarters operations and as NNSA's chief legal officer. He served as the Source Evaluation Board Chairman for the Los Alamos National Laboratory (LANL) contract competition and as the Source Selection Authority for the Lawrence Livermore National Laboratory (LLNL) contract competition. Prior to his positions in Washington, DC, Tyler was the chief counsel for NNSA's Albuquerque Operations Office. There, he twice served as the acting deputy manager and also served as site manager for the Los Alamos Site Office. Before 1994, Mr. Przybylek served as chief counsel for the Oak Ridge Operations Office. His first mission with the DOE was as senior counsel for the Strategic Petroleum Reserve Project Management Office in New Orleans. Mr. Przybylek received his Juris Doctor degree with honors from the National Law Center at George Washington University.

Currently Tyler provides business consulting services on government contracts and operations, principally Department of Energy and NNSA contracts. He is on the KPMG Canada team advising the Government of Canada on contracting for the operation of its nuclear laboratories, as well as a consultant to Universities Research Association, Inc., and Fermi Research Alliance LLC. He serves on the boards of Overly Door Company, Longenecker & Associates, LeGacy Resource Consulting and the Princeton Plasma Physics Laboratory Advisory Board and is a proxy board member for CB&I Project Services Group, LLC, constructor for the Mixed Oxide Fabrication Facility, Aiken, SC. Tyler is a member of the National Academy of Sciences Panel studying the governance of the NNSA national security laboratories.
